- **Technical and infrastructural facility management services for 65 BDBOS core network locations**
- **Contract extended until 2023**

Frankfurt, 3 November 2020 STRABAG Property and Facility Services GmbH (STRABAG PFS) extended its current facility management contract with the German Federal Agency for Public Safety Digital Radio (Bundesanstalt für den Digitalfunk der Behörden und Organisationen mit Sicherheitsaufgaben, BDBOS). STRABAG PFS will now manage all BDBOS's core network locations in Germany until well into 2023.

In addition to the maintenance and servicing of all technical installations relating to the building, the work also covers special subsections such as network administration centres and exchanges. STRABAG PFS is also responsible for building cleaning services, maintenance of outdoor facilities and winter services for the 65 total locations. The services are performed largely using own staff.

"We provide BDBOS with services in our highly-specialised area of expertise and are delighted with the trust that has been placed in us. Extending the contract allows us to further expand our market leadership in telecom, radio and broadcast technology," said Dirk Brandt, Managing Director at STRABAG PFS.

BDBOS first commissioned STRABAG PFS with the technical and infrastructure facility management of its core network locations in 2015.
