Frankfurt, 20 April 2021 AUDI AG has once again commissioned STRABAG Property and Facility Services GmbH (STRABAG PFS) with the technical facility management for the production facility Böllinger Höfe in the Heilbronn industrial area of the same name. The contract covers the overall operation of the technical building infrastructure for a total of six buildings, which include several production halls, a logistics centre, office buildings and a combined heat and power plant. AUDI AG has been one of STRABAG PFS's customers since 2014.

The services, which are provided on site with the company's own employees, include maintenance, repair, and fault clearance as well as a 24/7 on-call service. In 2011 Audi acquired a 23-hectare site in the industrial park in Heilbronn near the Audi plant in Neckarsulm and inaugurated its logistics centre and production of the Audi R8 there in 2014. Since then, the production site has been repeatedly rebuilt and expanded during ongoing operations. Since December 2020, the all-electric Gran Turismo Audi e-tron GT has also been manufactured there in addition to the Audi R8.

"We are very pleased about the renewed order; it is a vote of confidence in our capabilities. This contract demonstrates our high level of expertise in technical facility management and process orientation in the automotive market segment," says Andrea Jager, Managing Director at STRABAG PFS.
