- **Acquisition of gas, sanitary and heating technology specialists strengthens STRABAG PFS's technical and building services expertise**

Frankfurt/Vienna, 27.2.2024 STRABAG Property and Facility Services (STRABAG PFS) acquired the Triburuzek Group, based in Vienna, in February 2024. Triburuzek Installationen GmbH & Co. KG and Mück Haustechnik GmbH, including their 50 employees, will be integrated into STRABAG PFS Austria.

Triburuzek specialises in the planning, installation, servicing and modernisation of heat pumps and heating systems, residential renovations in the areas of gas, water, heating, and ventilation as well as 24/7 on-call fault and maintenance services and is very well established in Vienna thanks to its 40-year presence. In recent years, turnover has totalled around € 7 million per year. With the acquisition of Triburuzek, STRABAG PFS is adding sustainable and energy-efficient expertise in installation technology to its service portfolio. This is in line with sustainability targets and meets the needs of numerous customers, who also benefit from extended service offerings.

### **About STRABAG Property and Facility Services**

*The STRABAG Property and Facility Services Group (STRABAG PFS) is an integrated real estate and industrial service provider for all types of properties, leading in digital and technical expertise. For our customers we operate and manage offices, production-, industrial-, logistics-, and technical sites and support them in sustainably reducing the CO<sub>2</sub> emissions of their existing properties. Our service portfolio includes technical and infrastructural facility management, property management, construction in existing buildings, building technology and industrial services - for single buildings or facilities and for large property portfolios. Our qualified employees provide our services in Germany, Austria, Poland, Slovakia, and the Czech Republic - individually tailored to customers, sectors, and locations and to the highest quality standards.
