Frankfurt, 8.12.2022 E.ON SE has commissioned STRABAG Property and Facility Services (STRABAG PFS) with the technical facility management for its headquarters in Essen and other locations in Germany. The corresponding service contracts with a term of four years with an option to extend were signed in mid-August already. The commissioning was preceded by a Germany-wide call for tenders, in which STRABAG PFS convinced with its offer.

The E.ON headquarters, a 15-storey building on Brüsseler Platz in Essen with a net floor area of 120,000 sqm, is a technically extremely demanding property. For its in-house energy supply, the building is equipped with digitalised building control technology, three combined heat and power plants as well as photovoltaic systems. The contract also includes other buildings, such as a restaurant for E.ON employees on Lake Baldeney. E.ON is a long-standing customer of STRABAG PFS, that already provides services for several locations in Hanover, a data centre and around 60 locations of Bayernwerk, a subsidiary of E.ON.

Dirk Brandt, Managing Director Key Accounts at STRABAG PFS:
"With the headquarters of E.ON, one of the largest energy groups in Europe, we are expanding our long-standing partnership. We are very pleased about the trust placed in us. For us, the focus is on high-quality and sustainable property operation, which we provide largely with our own staff."
