- **Technical and infrastructural facility management for a variety of core network locations.**
- **Contract term until at least 2030**

Frankfurt, 14.11.2024 The Federal Agency for Public Safety Digital Radio (BDBOS) has put its facility management tasks in the technical and infrastructural sector out to tender and awarded them to STRABAG Property and Facility Services (STRABAG PFS) as a long-term contract. A corresponding contract with a term of at least six years has already been signed.

In addition to the maintenance and repair of all building technology systems, the contract also includes services for properties with special requirements, such as network management centres and exchanges. In addition, STRABAG PFS is responsible for cleaning, maintenance of the outdoor facilities and winter service for the locations. The services are largely provided by the company's own staff.

"Our core mission is to deliver energy-efficient and high-quality building operations with high availability to support BDBOS," stated Dirk Brandt, managing director Key Accounts at STRABAG PFS, who is very pleased about the further cooperation.

BDBOS first commissioned STRABAG PFS in 2015 with the technical and infrastructural facility management for its core network sites.

About STRABAG Property and Facility Services

*The STRABAG Property and Facility Services group (STRABAG PFS) is an integrated building solutions provider for all types of properties, leading in digital and technical expertise.
